

Staff Recommendations for Implementing Safe Roadways Committee Report

Criteria for prioritizing recommendations:

- Ease of implementation: cost, partners needed
- Potential impact
- Addressing most serious issues
- Balancing amongst travel modes

Staff Recommendations for Implementing Safe Roadways Committee Report

Steps to take within the next year:

- Create freestanding Takoma Park Transportation Committee.
- Communicate more regularly with SHA.
- Ask SHA to study whether roundabout can be constructed at Takoma Junction.
- Explore construction of recommended pedestrian safety measures as part of Carroll Avenue Streetscape Project and related Old Town Streetscape Improvements.

Staff Recommendations for Implementing Safe Roadways Committee Report

Steps to take within the next year:

- Explore traffic calming and other improvements as part of resurfacing projects.
- Work with City Arborist to identify opportunities to plant street trees along arterials in Takoma Park.
- Develop a sidewalk policy for the City.

Staff Recommendations for Implementing Safe Roadways Committee Report

Long term steps:

- Develop transportation planning process with a reporting function.
- Work with SHA to implement other recommendations.

Staff Recommendations for Implementing Safe Roadways Committee Report

Issues that need to be explored further:

- Is cut through traffic a serious problem?
- What would it cost to measure the quality of life indicators?
- Where are the most serious traffic safety issues in the City?

Staff Recommendations for Implementing Safe Roadways Committee Report

Other recommendations:

- The Bi-County Transitway could reduce traffic congestion in Takoma Park.
- Increased Traffic Demand Management in Silver Spring and Bethesda could reduce traffic congestion in Takoma Park.
